About us

AmeriSeed was formed in 1982 and is an international specialized plant genetics, breeding and production company, supplying Flower and Vegetable seeds to grower markets worldwide.

AmeriSeed India Pvt. Ltd., was registered in 2024 to better serve our growing Farmer and Distributor base in India.

Our varieties are specifically bred to withstand extreme heat, humidity and disease.

Pot and Bedding

Marigold F1 *Tagetes erecta*

Little Duck[®]

- Compact and naturally dwarf.
- Outstanding fully double flowers with tube shaped, tightly clustered petals.
- Plants are highly uniform with strong peduncles enabling easy transportation.
- Suitable for pots, beds and mass plantings.
- Extremely heat tolerant.

MAR352 Orange

MAR351 Yellow

General Information

Mega Flow[®]

catharanthus roseus

This most outstanding F1 Hybrid Trailing Vinca produces early blooms with extra-large flowers. Plants are strongly branched and vigorous with dark green foliage and the ability to self-clean. Mega Flow has high-impact blooms with overlapping petals. Its trailing habit makes it ideal for hanging baskets. Plants are exceptionally heat-tolerant.

General Information

Germination	5-6 days
Sowing to transplant	25-30 days
Transplant to 1st flower	45-50 days
Flower size	6-7 cm
Plant height	10-15 cm
Plant width	30-45 cm

Jumbo Frilly

F1 Petunia x hybrida

This unique new variety is the first in its class, sharing all the benefits of the 'Jumbo Frilly' series of dwarf petunias but with the bonus of frilly flowers

General Information

Seed Form	Natural/ Pelleted
Seed Count	10,000/g
Flower size	10-15 cm
Plant height	18-23 cm
Plant width	25-30 cm

PET610 Jumbo Frilly

Grandis

F1 Petunia grandiflora

A naturally dwarf grandiflora Petunia with superior garden performance compared to rivals. The compact and non-stretching plant habit is easier to hold in greenhouse production and results in superb shelf life during shipping and at retail level.

General Information

Seed Form	Natural/ Pelleted
Seed Count	10,000/g

COL083 Rusty Red

Coleus Baba

coleus

- A stunning collection of weird and wonderful colors which are perfect for adding contrast and texture to any garden.
- Superior heat and sun tolerance - leaves are resistant to curling in the midday sun, even in low humidity.
- Can be used in shaded areas to add a burst of color.
- Late flowering to prolong the beauty of the foliage.
- Strong branching and vigor - perfect for large pots and containers.

COL082 Mosaic

General Information

Seed Form	Pelleted
Seed Count	3,500/g
Plant height	40-50 cm
Plant width	40-50 cm

COL081 Chocolate Rose

Honey Bee

Cosmos bipinnatus

Honey Bee is a brand new variety which brings great benefits for growers, retailers and consumers alike. The naturally dwarf habit and shorter internodes make for a better display of color and better shelf life and also make it easier grow and transport.

Meanwhile the larger flowers and better petal quality leads to much greater impact in containers or the garden. Honey Bee is a delightful blend of Pink Picotee, White and Pink. Honey Bee excels in the garden, with a very long flowering period and unrivalled disease & heat tolerance.

DIA315 Purple Ice

DIA313 Raspberry Picotee

DIA316 Red

DIA317 White

DIA310 Mix

GER205 Red

Geranium Fireball

F1 Pelargonium x hortorum

Fireball Red is the best option available for landscaping. Large flower heads and vigorous plants mean that planting densities can be decreased with no reduction in the visual appeal. The size and ground covering ability of Fireball Red makes it the number one choice for landscapers.

General Information

Seed Form	Natural
Seed Count	220 /g
Flower size	12-25 cm
Plant height	30-40 cm
Plant width	30-35 cm

HIB041 Deep Red

HIB042 White

HIB043 Light Rose

HIB044 Rose

New Moon

F1 Hibiscus moscheutos

New Moon is a very heat tolerant variety and will enjoy a sunny spot in the garden. Hibiscus responds very well to growth regulators, and with the correct programme will make a very saleable, bushy, flowering plant in as little as 14 weeks from sowing

HIB040 Mix

Star Flare

F1 Nicotiana x sanderae

Compact, branching and uniform, Star Flare is great for plug and pack production but also has added vigor for improved garden performance. These combined characteristics make Star Flare the perfect choice for growers without compromising the performance for the home gardener.

General Information

Seed Form	Natural
Seed Count	620 /g
Flower size	3-4 cm
Plant height	25-30 cm
Plant width	30-40 cm

Gravity

F1 Viola x wittrockiana

Gravity is the grower's choice for Spring and Autumn baskets! Compared to competing varieties, Gravity is more affordable, comes in a wider range of colors and produces flowers all over the plant. The sustained daylength neutral flowering means that Gravity will flower much later into Winter and will also be first to flower in Spring. Being extremely hardy, Gravity can survive all but the harshest conditions making it an ideal consumer choice for Winter baskets.
